Tactical to Technical - We've Got You Covered

Aspetto Intro:

Aspetto, Inc., headquartered in Fredericksburg, VA, is a Small, Disadvantaged Business with SBA 8(a) and HUBZone certifications. The company was established in 2008 with a simple goal in mind, to provide the highest level of customer service to our clients and equip them with the highest quality products. Although the company started as a clothing line, it quickly evolved, becoming America's first bullet-resistant clothing line, which then transpired Aspetto to make significant tactical/military product improvements. Aspetto is a highly regarded contractor within the industry and sees over 95% of their revenue from Government, military, and Law Enforcement sales directly. Abbas Haider, CEO, and Robert Davis, COO, made the Forbes 30 under 30 list for being game-changers in the body armor industry setting the stage for their 2021 recognition on the Inc. 5000 America Fastest-Growing Private Companies. Additionally, our CSO, Greg Dyer, comes to us from years of owning and operating a successful DoD contracting company. He managed numerous prime contracts with 485 direct employees and over 500 subcontractors at over 30 government sites across the globe.

Core Competencies

Aspetto is dedicated to the end user integrating the best service with the highest quality products and solutions. Aspetto is at the ready and offers just some of the following:

- Ballistic / Armor Capabilities
- Rapid Prototyping
- Software Development
- Clandestine Operator Clothing
- Information Technology / Cyber Security
- UAV Systems
- Custom Design Contracting (CDC)
- Wearable Technology

The Difference

Bringing immediate, accurate, and quintessential solutions. Our dedicated and forthright team offers only the best for your mission. Catering to you, the end user is what we do – ensuring we continuously tailor our services and develop our products to exceed your needs.

Contract Performance

U.S. Air Force
USAF FBA

Aspetto Inc. is the manufacturer for the USAF Security Forces Newest Female Body Armor. Aspetto has kitted over 7,500 Female Airmen globally with the tested and proven Mach V system, seen on the front page of this catalog. It's about time our female soldiers are given proper protection and comfort as they serve to protect our nation's freedom. Aspetto is more than happy to lead this charge into every branch of our Nation's military. With the help of our prime contractor, Tactical & Survival Specialties inc., we have distributed the Female Mach V to the Air Force bases worldwide

U.S. Dept. of Health
& Human Services
Uniform & Logistics

Aspetto is shipping out thousands of customized products with screen printing, embroidery, and custom made patches. The Department of Health and Human Services recently awarded Aspetto an acquisition and distribution contract to serve thousands of individual employees in CONUS/OCONUS. While DHHS battles the COVID 19 virus, Aspetto is distributing and managing inventory, reducing the load on our Health Care professionals. Aspetto is shipping a kit that includes polos, parkas, and scrubs all kitted and sent to each employee's individual address. With plenty of experience managing subcontractors, 5.11 and Phoenix Textiles, have made the kitting processes smooth

Department of
Homeland Security
Customs and Border
Patrol Plate Carriers

In the most necessary times for our Border Patrol Agents they can rest assured their safety in the Aspetto Kwiq PC. Over 10,000 Plate Carriers have been distributed to our Nation's ports and Borders, where CBP officers serve and protect against unwanted drug and human trafficking. The Kwiq clip technology is one of the many engineering breakthroughs that have made Aspetto innovators in the defense industry.

U.S. Dept. of State
Exports: CENTRAL
AMERICA / EUROPE

Aspetto has expanded their efforts to support U.S. exporting of defense aid for allied countries. The Bureau of International Narcotics and Law Enforcement Affairs in Mexico requested over 500 items to be kitted and shipped to over 20 locations throughout Mexico. Aspetto's warehouse team stepped up and easily fulfilled the request in the early days of the COVID-19 Pandemic. Aspetto also has supported the State Department in Kiev, supplying Ukraine with U.S. aid of Ballistic carriers, ballistic plates, ballistic shields, and full body armor. Aspetto oversaw delivery and receipt of all products by the end users as well as serviced repairs and replacements as needed.

Contract Management

Years of large contract performance like this has given Aspetto outstanding experience coordinating large logistical projects while simultaneously navigating through challenges of supply shortages, lost product, and Customs hold-ups. Aspetto ensures these tasks are handled to the fullest potential to supply a seamless, high-quality finished product. Our management team has proven time and time again that we excel at using our diversity and teamwork to coordinate and execute even the most complicated of task orders. These current contracts speak to our capabilities as a resolute team that will support the modern-day soldier, whether during their days as boots on the ground, years later outranking all others, or retired as a government civilian. From Tactical to Technical, Aspetto offers a multitude of products and services.

Advantage!

Aspetto Marketing Services

Pop Smoke Media began as a way to bring laughter to troops worldwide in 2015. As our presence grew, so did our responsibility to use our voice to affect positive change. It is our mission to entertain, inform and advocate for the military and veteran community. Now, Pop Smoke Media reaches a large audience of servicemembers (past and present), first responders and patriots, with an audience of near a million followers total. This includes hundreds of thousands of post interactions per month. The Smoke Pit Podcast has been downloaded 500,000 times and streamed several times that amount. The Pop Smoke Media News website is less than a year old, yet still has had several hundred thousand unique visitors already. This is a direct result of the multiple relevant stories Pop Smoke Media was the first to break.

We also offer a unique opportunity to strategic partners looking for direct access to a large audience of post 9/11 of active duty, reserve, and veteran service members. Pop Smoke Media has worked with such enterprises as Capital One, The Washington Football Team, Samuel Adams, the New Jersey Air National Guard, the Department of Veterans Affairs, Grunt Style, T-Mobile, and many others, to achieve specific goals relating to the military and veteran community.

RECON K-9

ASPETTO

VISUAL ENGINEERING
INTEGRATED VIDEO SOLUTIONS

Aspetto K9 Modular Vest System

Aspetto has strategically combined two specialized products by highly regarded companies in the K9 industry, Recon K9 and Visual Engineering. Aspetto's MVS features complete customization to meet customer needs. Recon K9's DermalTac Alpha is your K9's tactical "second skin." The silhouette of the vest has been laser cut, providing optimal airflow throughout the vest while eliminating weight wherever possible. The 4-way stretch and custom-designed foam channels offer a secure and snug fit to this Berry compliant K9 vest. The carrier is fast rope and rappelling approved, with several connection points and a front and back handle for easy control by the operator. Acting as the base layer for all attachments, the DermalTac Alpha allows for easy integration of each mission-specific attachment. Ballistics designed to protect against any threat fit a ballistic coverlet featuring rare earth magnets that easily and securely connect to the vest ensuring proper alignment and fitment on the K9. This system also integrates flotation coverlets when facing water-based missions. These attachments all integrate seamlessly with Visual Engineering TM-K9 Camera System. Whether running light with just the base system, protecting against special threats, or swimming the K9 to the point of interest, the Camera system can continue operating, tracking, and recording intel. The TM-K9 Camera system is utilized by Special Forces units globally. The system allows end-users real-time feed and the ability to communicate commands to the K9 while securing an area at a distance. The system runs on a Mesh network which will enable users operating multiple cameras, an extended range. Camera features are customizable to perform at various frequencies, provide thermal optics, and many other options.

Mach-V

ASP-USAF-MACH-V

Especially designed for the USAF Security Forces, the MACH-V carrier checks all the boxes. This carrier combines all the sought after features of the 365 Plate Carrier with Quad Release and USAF Plate Carrier, creating a revolutionary platform that takes speed, comfort, and agility to a whole new level. This system allows female structured armor for enhanced comfort.

Features

- ▶ Available in male & female shaped carrier
- ▶ Female structured armor available
- ▶ Quad release with single trigger system
- ▶ Easy modular attachments
- ▶ Accommodates E-SAPI on front and back of the carrier
- ▶ Hard armor bottom loading pocket for additional protection
- ▶ Reinforced drag handle
- ▶ Shape retention addition in the carrier
- ▶ Flame retardant construction
- ▶ Available in x-small to x-large size

365

Plate Carrier

ASP-365-QR

The 365 plate carrier was designed for speed. One of the most popular designs amongst the US Air Force, this Modular carrier was built with a revolutionary quick release system. A single pull will instantly release all four buckles allowing for swift doffing. Donning is just as quick as doffing and the standard comfort features that come with this durable and light weight carrier will make sure you enter any situation with ease.

Features

- ▶ A Light weight (Approx. under 6lbs) platform stable enough to increase load carriage performance
- ▶ Constructed of 500 denier CORDURA nylon pouch, and panel material solution dyed 500 denier CORDURA for durability and longevity
- ▶ Single Point Trigger Release System with Fastek Buckle re-assembly
- ▶ External Cummerbund with Side Plate Pocket to accept additional soft armor coverage and ability to accept 7" x 8" hard armor plates
- ▶ Front and Back panels with padding for comfort
- ▶ Cummerbund attachment at the front via clips which allows access to PALS webbing on the cummerbund where it meets front panels

Aspetto KWIQ

ASP-KWIQ-REPLACEMENT

The Aspetto KWIQ was designed to make the process of both donning and doffing a vest as secure and simple as possible. Its patented technology is the core of its simplicity; all the operator has to do is "push it" into the channel to secure the vest or "lift" and "pull" to release. Along with former Marines, our team of mechanical engineers worked tirelessly to create the best solution possible without compromising strength, maneuverability, and speed. This is the Aspetto KWIQ - born to better serve you.

Features

- ▶ Self Cleaning
- ▶ Injection molded with high strength and self lubricating acetal
- ▶ Data sheets available upon request - please contact for order information.
- ▶ Colors: Coyote, Black, Ranger Green

KWIK Plate Carrier

ASP-KWIK-PC

Aspetto KWIK PC is centered around the servicemen and women safeguarding our freedom, offering them a lightweight but durable, modular, KWIK releasing solution.

Features

- ▶ 500 D Nylon CORDURA Outer Shell
- ▶ Available in 8"x10"/10"x12"
- ▶ Front and back hard armor plate pockets (bottom loading)
- ▶ KWIK Clips
- ▶ Removable MOLLE Placard
- ▶ Mesh MOLLE Cummerbund
- ▶ Adjustable shoulder straps
- ▶ Low-pro drag handle
- ▶ Laser cut synthetic rubberized shoulders with low-pro strap covers
- ▶ Anti-microbial and moisture wicking body ventilation

9

Bullet Resistant T-Shirt

ASP2-203-508

This ultra-concealable t-shirt is designed to keep you safe, comfortable, and provide you with the most versatility seen within the ballistic industry. As an undergarment, this machine washable carrier can be worn daily on duty, covertly on detail, or as an everyday protection system concealed by any over garment.

Features

- ▶ 1 Fabric - 85% Nylon, 15% Spandex
- ▶ Antibacterial thread
- ▶ T-Shirt Shaped Ballistic Panels
- ▶ Colors - Black and White

EXECUTIVE DEFENSE CARRIER

Our Laser Cut Armor Carrier (LCAC) systems have been designed to offer light weight patrol packages without sacrificing coverage. We offer two different models to choose from in this line-up. The first is a full coverage tactical carrier which uses concealed cut soft armor panels and boasts continuous wrap around 360-degree coverage (LCAC1). The second is a more minimalist plate carrier version which will utilize soft armor plate backers (pictured right). Both hold full size hard armor rifle plates in any type of cut (shooters, swimmers, SAPI, Full) and both have the ability to upgrade the cummerbunds to hold hard rifle armor over the soft armor as well. We use the finest Anti-Microbial, Flame Retardant spacer mesh for all body contact. Coming Standard with the Aspetto KWIQ clips makes these carriers the fastest in the industry to don and doff. Adjustable shoulder straps and cummerbund waist line assure a proper fit for all users.

Features

- ▶ 100% American Made.
- ▶ Laser cut with Brookwood Squadron Laminate.
- ▶ 500D Cordura Outer for durability
- ▶ Aspetto KWIQ-Clip fast release side buckle system
- ▶ Available in Full Concealed Cut model or Plate Carrier Model

Standard Concealable Carrier

ASP-2-201-000

Standard Concealable Vest is a discrete option for ballistic protection. The vest is designed to fit the torso comfortably and securely.

Features

- ▶ Side opening design
- ▶ Lightweight breathable water repellant carrier
- ▶ Moisture-wicking, anti-microbial inner liner which draws moisture away from the body for faster cool-down
- ▶ 4-point adjustable strapping system
- ▶ Designed to fit soft armor inserts for full torso coverage
- ▶ Dual 6 x 8 and 7 x 9 front plate inserts
- ▶ Low profile loop for less bulkiness and reduced friction against clothing

Available with Level II and Level IIIA, Male and Female Ballistic soft armor packages

Available with Level II and Level IIIA, Male and Female Ballistic soft armor packages

GEN II Concealable Carrier, Standard Cut

ASP-2-201-017

The GEN II Concealable Vest is a discrete option for ballistic protection. It was designed to be light weight and high speed. This vest offers excellent coverage while allowing maximum comfort

Features

- ▶ Side opening design
- ▶ Lightweight breathable water repellent carrier
- ▶ Moisture-wicking, anti-microbial inner Mesh liner which draws moisture away from the body for faster cool-down
- ▶ 4-point adjustable strapping system
- ▶ Low profile loop
- ▶ Front trauma plate pocket that fits 5x8, 6x8, 7x9
- ▶ Hidden zipper closure for comfort

HD Concealable Carrier

ASP-2-201-024

HD concealable vest is a discrete option for both soft and hard armor protection. The vest is designed to fit the torso comfortably and securely while providing maximum protection.

Features

- ▶ Side opening concealable design
- ▶ Full torso protection
- ▶ Durable water-resistant Nylon outer material
- ▶ Moisture-wicking, anti-microbial inner liner which draws moisture away from the body for faster cool-down
- ▶ 4-point adjustable strapping system
- ▶ Front and Back rifle plate pockets
- ▶ Heavy duty shoulder straps to prevent sagging when wearing rifle plates
- ▶ Low profile design to reduce friction against body
- ▶ Heavy duty hook and loop for secure fit

Available with Level II and Level IIIA, Male and Female Ballistic soft armor packages

LC Concealable Carrier

ASP-2-201-004

The LC concealable vest provides full torso protection while providing a secure and comfortable fit.

Features

- ▶ Side opening design
- ▶ Constructed with durable materials
- ▶ 4-point adjustable strapping system
- ▶ Heavy duty woven Nylon elastic straps
- ▶ Designed to fit soft armor inserts for full torso protection
- ▶ Front trauma plate pocket

Available with Level II and Level IIIA,
Male and Female Ballistic soft armor packages

Available with Level II and Level IIIA,
Male and Female Ballistic soft armor packages

X-Shirt Concealable Carrier

ASP-2-201-010

The X-Shirt is designed for maximum concealability and comfort

Features

- ▶ Maximum concealability
- ▶ Comfortable for all day wear
- ▶ 4 way stretch material
- ▶ Provides overlapping side coverage
- ▶ Additional waist adjustments if needed

4PV

Concealable Carrier

ASP-2-201-020 7

The 4PV (Four Panel Vest) is the latest innovation in armored protection. Four independent panels articulate to provide unparalleled mobility and protection. This easy to size platform provides a fully modular, highly adaptable and comfortable system that users want to wear.

Features

- ▶ Slim design
- ▶ Reinforced, highly durable straps to prevent sagging and rolling
- ▶ Independent side panel suspension
- ▶ Four panel vest for complete modular coverage
- ▶ Internal ballistic suspension system
- ▶ Modular side panels can be replaced with larger/smaller panels if individual sizing changes
- ▶ Body-facing antimicrobial mesh
- ▶ Moisture-wicking and soil release outer fabric
- ▶ Plate pocket with included soft trauma pack
- ▶ Supports 5x8 and 7x9 trauma plates
- ▶ Vest must be individually sized
- ▶ NTOA member tested and approved

Available with Level II and Level IIIA,
Male and Female Ballistic soft armor packages

13

4PV-FEM Concealable Carrier

021-201-ASP-2

The 4PV-FEM (Four Panel Vest - Female) is the latest innovation in armored protection. Four independent panels articulate to provide unparalleled mobility and protection. This easy to size platform provides a fully modular, highly adaptable and comfortable system that users want to wear.

Features

- ▶ Slim design
- ▶ Reinforced, highly durable straps to prevent sagging and rolling
- ▶ Independent side panel suspension
- ▶ Durable 2-to-1 straps help mold armor around bust
- ▶ Four panel vest for complete modular coverage
- ▶ Internal ballistic suspension system
- ▶ Modular side panels can be replaced with larger/smaller panels if individual sizing changes
- ▶ Body-facing antimicrobial mesh
- ▶ Moisture-wicking and soil release outer fabric
- ▶ Plate pocket with included soft trauma pack
- ▶ Supports 5x8 and 7x9 trauma plates
- ▶ Vest must be individually sized
- ▶ NTOA member tested and approved

Available with Level II and Level IIIA,
Male and Female Ballistic soft armor packages

Available with Level II and Level IIIA,
Male and Female Ballistic soft armor packages

4PV Tactical Carrier

086-202-ASP-2

The 4PV-TAC (Four Panel Vest-Tactical) is the tactical adaptation of our revolutionary 4PV system. The 4PV-TAC cover allows users who are already issued a 4PV concealable vest to run the same armor in an overt application. The 4PV-TAC has MOLLE attachment points to allow for customization with our line of tactical pouches and ACE accessories.

Features

- ▶ Lightweight carrier
- ▶ 360° MOLLE attachment points
- ▶ Body-facing antimicrobial mesh
- ▶ Front and back loop fields for identification
- ▶ 2-point release system for easy removal
- ▶ Can hold full size hard plates
- ▶ Vest must be individually sized

Available with Level II and Level IIIA,
Male and Female Ballistic soft armor packages

Firearms Instructor Carrier w/MOLLE

038-202-ASP-2

Features

- ▶ Adjustable side opening design
- ▶ Constructed with heavy duty WTR 1000d Nylon
- ▶ 10x12 Plate pockets
- ▶ Internal elastic cummerbund
- ▶ Removable front and back ID placards
- ▶ 360 degree Molle coverage
- ▶ Available front shoulder mic clip attachments
- ▶ Color: High Visibility RED to ensure safety on the range

First Responder Vest w/MOLLE

068-202-ASP-2

The First Responder Vest is the complete solution for all Emergency Responders. It is designed as a one-size-fits-most, alleviating the need to have multiple vests. The First Responder was designed BY Fire-Rescue / EMS personnel FOR Fire-Rescue / EMS personnel. Our vest provides the same level of threat protection as that used by Law Enforcement, but WITHOUT the look of a Law Enforcement vest. Designed around Bunker / Turnout gear that is worn everyday by Fire-Rescue personnel. Fire-Rescue and EMS personnel can now be seen as a Medical Response versus a Law Enforcement response

Features

- ▶ One-Size-Fits-Most design. Adjustable from 20" to 64" waist
- ▶ NIJ 0101.06 Level IIIA Soft Ballistics
- ▶ Fully adjustable shoulder straps to accommodate for varying chest girths
- ▶ Shoulder area includes framework to accommodate ballistic inserts
- ▶ Front & Rear plate pockets to accommodate 10" x 12" rifle protection plates
- ▶ Wide "Bunker Gear" style front pocket with elastic retention for IFAK / Radio or general storage
- ▶ Heavy duty rear drag handle
- ▶ Heavy duty 1000d Nylon construction
- ▶ NFPA 3000 compliant
- ▶ Berry Compliant 100% made & manufactured in the U.S.A.

Available with Level II and Level IIIA, Male and Female Ballistic soft armor packages

HG2 Tactical Carrier

045-202-ASP-2

The HG2 Armor System includes removable collar, throat, biceps and groin protection for a customizable level of protection in any tactical mission. The vest and attachments are constructed with MOLLE webbing. The system is designed with a 2-point release system which allows the user to quickly doff the vest in emergencies.

Features

- ▶ 2-point emergency release system
- ▶ Full ballistic coverage, including shoulders
- ▶ Scalable carrier design accommodates additional collar, throat, biceps, and groin protection
- ▶ MOLLE compatible webbing system
- ▶ Front and back plate pockets accommodate 8" x 10", 10" x 12" and ESAPI hard armor plates
- ▶ Front flap secures external cummerbund and features a kangaroo pouch
- ▶ Adjustable shoulder strapping system
- ▶ Mesh liner for improved cooling and comfort
- ▶ Emergency extraction drag strap
- ▶ Dual rifle sling attachments
- ▶ Multiple mic clip attachments
- ▶ Cummerbund system design for even weight distribution
- ▶ Optional Ballistic Insert for Cummerbund

Available with Level II and Level IIIA, Male and Female Ballistic soft armor packages

Winter Quilted Carrier

022-202-ASP-2

Features

- ▶ Insulated outer carrier for cold/inclement weather
- ▶ Fits concealable panel shapes
- ▶ Non-aggressive/non-tactical appearance
- ▶ Adjustable shoulders
- ▶ Elastic side closure straps
- ▶ Name plate holder
- ▶ Back ID placard
- ▶ (3) front pockets
- ▶ Front zipper opening for ballistic panel access

Available with Level II and Level IIIA, Male and Female Ballistic soft armor packages

Uniform Shirt Carrier

078-202-ASP-2

The Uniform Shirt Carrier designed for the officer that wants the comfort and performance of an outer carrier while giving the appearance of a professional uniform shirt

Features

- ▶ Accepts all SS concealable panels
- ▶ External carrier with uniform appearance
- ▶ 600 denier polyester outer shell material
- ▶ 4 permanent sewn-in creases
- ▶ Two functional chest pockets with hook and loop closures
- ▶ Formal shoulder epaulettes double as mic tabs
- ▶ Easy and secure body-side panel access
- ▶ Panel suspension for proper alignment prevents sagging and curling
- ▶ Adjustable shoulder straps
- ▶ Elastic side straps for better comfort and mobility
- ▶ Internal 6x8 and 7x9 front trauma plate pockets

Available with Level II and Level IIIA, Male and Female Ballistic soft armor packages

International Tactical Carrier

019-202-ASP-2

The International Tactical carrier is the latest in value carrier systems designed for streamlined use in the field. This user-friendly carrier is compatible with high speed cut ballistic inserts for added lightweight protection.

Features

- ▶ Constructed of durable 1000 denier material
- ▶ Modular system able to accommodate additional accessories (throat, collar, biceps, groin)
- ▶ Front and back plate pockets
- ▶ MOLLE compatible
- ▶ Adjustable shoulders for improved fit
- ▶ Adjustable side closure system
- ▶ Reinforced, heavy-duty rescue strap
- ▶ Front and back hook and loop ID attachment platforms

Available with Level II and Level IIIA, Male and Female Ballistic soft armor packages

International Tactical w/Side Plate Carrier

033-202-ASP-2

The International Tactical Vest with Side Plate Carrier is the latest in overt carrier designs. This is a versatile design that can accommodate many different operators.

Features

- ▶ Constructed of durable 1000 denier Nylon
- ▶ Adjustable shoulders for improved fit
- ▶ Adjustable side closure with quick release buckles
- ▶ Reinforced, heavy-duty drag handle
- ▶ MOLLE compatible
- ▶ Modular accessory system which is able to accommodate throat, collar, biceps, groin
- ▶ Front and back plate pockets
- ▶ Side plate carrier
- ▶ Front and back hook and loop ID attachment

Available with Level II and Level IIIA,
Male and Female Ballistic soft armor packages

Available with Level II and Level IIIA,
Male and Female Ballistic soft armor packages

Operator Tactical Carrier w/Cummerbund

057-202-ASP-2

The Operator tactical vest is built for speed. It provides full protection without compromising functionality. Made of 1000D Nylon and 360 degree MOLLE and accepts all accessories.

Features

- High-Speed armor shape
- Scalable carrier design accommodates additional collar, throat, groin and biceps
- MOLLE compatible webbing system
- Front and back 10" x 12" internal plate pockets
- Front flap secures the cummerbund and features a kangaroo pouch
- Adjustable shoulder strapping system
- Mesh liner for improved cooling and comfort
- Emergency extraction drag strap
- Dual rifle sling attachments
- Cummerbund system design for even weight distribution

UTOC Vest Carrier

044-202-ASP-2

Features

- ▶ Full coverage, side opening tactical vest
- ▶ Constructed with 1000d WRT Nylon
- ▶ Adjustable foam shoulder straps
- ▶ Spacer mesh liner for maximum air flow and cooling
- ▶ Communication channels
- ▶ 10x12 or 8x10 external front and back plate pockets
- ▶ Side plate pockets
- ▶ 360 degree cummerbund for load distribution
- ▶ Front kangaroo pouch for additional storage
- ▶ Available with accessories

Available with Level II and Level IIIA,
Male and Female Ballistic soft armor packages

WLV Tactical Carrier w/Cummerbund

001-202-ASP-2

WLV Carrier is the latest in carrier systems designed for streamline use in the field. This user-friendly carrier is equipped with multiple integrated storage pockets and is designed with high speed ballistic inserts for increased mobility.

Features

- ▶ Constructed of durable 1000 denier material
- ▶ Modular system able to accommodate additional accessories (throat, collar, biceps, groin, lower back protector, and side gap armor)
- ▶ Front and back plate pockets
- ▶ Adjustable shoulders for improved fit
- ▶ Shoulders are designed with a high density polyethylene padding system for comfort
- ▶ Adjustable cummerbund for secure fit
- ▶ Cummerbund system is designed for weight distribution
- ▶ Reinforced heavy-duty rescue strap
- ▶ Front and back hook and loop ID attachment platforms

Available with Level II and Level IIIA,
Male and Female Ballistic soft armor packages

Denali Tactical Carrier

052-202-ASP-2

The Denali™ Tactical Armor System is premier carrier and is loaded with features. The carriers uniquely designed Tactical Insert Plate Pockets (TIPP™) allow you to drop in hard armor plates on the fly with no need to remove the vest or struggle with inserting them. This system allows for instant up-armor capabilities without having to cover up critical gear that is stored in your vest pockets and pouches!

Features

- ▶ Dual shoulder microphone/camera attachments.
- ▶ Quick access TIPP™ plate pockets with integrated trauma pad pocket.
- ▶ Front and back Velcro® for ID patches.
- ▶ Tough 500 Denier Cordura® Nylon outer fabric.
- ▶ QuickLoc side attachment system (patent pending) or double Velcro® closures.
- ▶ Fully adjustable double-overlap Velcro® shoulders.
- ▶ Highly breathable 3D inner mesh lining with Outlast® thermal control layer.
- ▶ Large volume front accessory pocket with inner pocket organizers.
- ▶ Built-in hard armor plate support system balances load and reduces wearer fatigue.
- ▶ Front, side and rear MOLLE® pocket attachment points.

Available with Level II and Level IIIA,
Male and Female Ballistic soft armor packages

VIP CONCEALABLE VEST

ASP-CONC-VEST

The VIP Concealable Vest is a discreet option for ballistic protection. It was designed to be light weight and high speed. This vest offers excellent coverage while allowing maximum comfort

Features

- ▶ Low profile fit
- ▶ Ultra concealable design
- ▶ Left and right side front zipper for easy on/off
- ▶ Stretch fabric for the most comfortable fit
- ▶ Anti-microbial moisture management
- ▶ Available in NIJ level 3A and NIJ level 2

6 ROUND SHOTGUN SHELL POUCH

ASP-6SGSHELL-PCH

The Aspetto 6 Round Shotgun Shell pouch holds up to 6 standard or high brass shotgun shells, and has an enlarged velcro closure with a quick pull tab for easy access.

Features

- ▶ 500D Cordura
- ▶ Internal webbing
- ▶ Holds up to 6 standard shotgun shells
- ▶ Velcro closure.
- ▶ MOLLE compatible
- ▶ Available in Black, Coyote, Ranger Green, Multicam, OCP

6" BATON POUCH

ASP-BATON-PCH

The Aspetto 6" Baton Pouch is designed to hold a standard 6" extendable baton. MOLLE compatible, with a velcro flap closure for secure storage.

Features

- ▶ Material: 500D Cordura
- ▶ Heavy duty webbing.
- ▶ Velcro closure.
- ▶ MOLLE compatible
- ▶ Mounts vertically
- ▶ Available in Black, Coyote, Ranger Green, OCP and Multicam.

8" BATON POUCH

ASP-8BATON-PCH

The Aspetto 8" Baton Pouch is designed to hold a standard 8" extendable baton. MOLLE compatible, with a velcro flap closure to keep your baton secure and quickly accessible.

Features

- ▶ Material: 500D Cordura
- ▶ Heavy duty webbing.
- ▶ Velcro closure.
- ▶ MOLLE compatible
- ▶ Mounts vertically
- ▶ Available in Black, Coyote, Ranger Green, OCP and Multicam.

9" FLASHLIGHT POUCH

ASP-9BATON-PCH

The Aspetto 9" Flashlight Pouch will fit a variety of bezel torches from most manufacturers. Rather than having a crimped bottom like most other flashlight pouches, ours has a wider diameter all the way to the base, enhancing carrying capacity, versatility and accessibility!! This pouch is slim which saves space on your gear or belt. A secure velcro flap provides length adjustability.

Features

- ▶ Material: 500D Cordura
- ▶ Heavy duty webbing.
- ▶ MOLLE compatible
- ▶ Adjustable Velcro flep lid to fit different lengths
- ▶ Mounts vertically
- ▶ Available in Black, Coyote, Ranger Green, OCP and Multicam.

ASPETTO MOLLE RIGGERS BELT

ASP-CBMOLL-100

The Aspetto MOLLE Riggers Belt is designed to be worn as a standalone belt or with our padded inner belt (included). These belts allows the user to access mission critical equipment more efficiently.

Features

- Constructed of durable T3 MIL-W-530 2" webbing.
- Our belt has PALS on the outside allowing any MOLLE items to be quickly attached, giving you the option wear MOLLE pouches and tactical equipment on the belt.
- Padded interior belt attaches to outer belt securely via Velcro.
- Forged riggers loop attached to the Austri-Alpin Hybrid Cobra buckle has a 4000-pound weight rating.
- The webbing is doubled, giving the belt extra stiffness.
- Available in Black, Coyote, Ranger Green, OCP and Multicam.

DOUBLE HANCUFF POUCH

ASP-HC-PCH

The Aspetto Double Handcuff Pouch is constructed of lightweight and durable 500D cordura that provides a secure pocket that is designed for up to two pairs of handcuffs. The Double Handcuff pouch is highly functional and MOLLE compatible.

Features

- Material 500D Cordura
- MOLLE compatible
- Fits up to two pairs of standard handcuffs
- Velcro secured flap.
- Mounts vertically
- Available in Black, Coyote, Ranger Green, OCP and Multicam.

UTILITY POUCH

ASP-UTILITYPOUCH-LG

The Aspetto utility pouch is a durable pouch constructed of 500D cordura. It has dual zipper pulls for easy access. This utility pouch can hold a multitude of items that you need on the field or on the range. It is MOLLE compatible so it attaches to your tactical gear with ease.

Features

- ▶ Material: 500D Cordura
- ▶ Size: 5 x 6
- ▶ Dual zipper pulls
- ▶ Slick front design
- ▶ Available in Black, Coyote, Ranger Green, OCP and Multicam.

ADVANCED ADMIN POUCH

ASP-ADVADMIN-PCH

The Aspetto Advanced Admin Pouch is a compact pouch used for small items that are used on whatever mission you are on. The pouch features a velcro flap to attach such things as morale, flag, unit, and IR patches. The velcro flap covers the zipper for added security, and also has a horizontal pocket with flap for added storage of other accessories.

Features

- ▶ Material: 500 Denier Cordura
- ▶ Compact design
- ▶ Horizontal Pocket holds 2-Cell flashlights, knives and multi-tools.
- ▶ Perfect for everyday mission essentials
- ▶ Internal tie down points
- ▶ Ideal for chem-lights, pens, pencils, small waterproof notebook, compass, etc.
- ▶ Available in Black, Coyote, Ranger Green, OCP and Multicam.

IFAK POUCH

ASP-IFAK-PCH

The Aspetto IFAK Medical pouch is a low profile pouch that holds all the trauma supplies you may need, such as a Tourniquet, Chest Seal Compression Bandage, Decompression Needle, and a Hemostatic agent. The IFAK Medical Pouch has elastic bands on the inside top flap designed to hold gloves, a tourniquet, and a decompression needle. The bottom inside flap has an additional pouch that is capable of holding any other supplies you may need.

Features

- ▶ Material: 500D Cordura
- ▶ Low Profile
- ▶ MOLLE compatible
- ▶ Available in Black, Coyote, Ranger Green, OCP and Multicam.

MBITR RADIO POUCH

ASP-URADIO-PCH

The Aspetto MBITR Radio Pouch, is a padded construction pouch made of durable 500D cordura. It has a side window for easy radio adjustments. This pouch offers a 550 cord closure with a secondary side release clip web closure. The pouch is MOLLE compatible to easily attach to your tactical gear. It also has a large grommet drain hole in the bottom.

Features

- ▶ Constructed of 500D cordura
- ▶ Padded Construction
- ▶ Side Window for Radio operation
- ▶ 550 Cord Closure
- ▶ Secondary Web Closure
- ▶ Large Grommet Drain Hole
- ▶ MOLLE compatible
- ▶ Mounts vertically
- ▶ Available in Black, Coyote, Ranger Green, OCP and Multicam.

DOUBLE MAG PISTOL POUCH

ASP-MCMMPD

The Aspetto Double Pistol Mag Pouch will fit both single and double stacked pistol magazines. The magazines are secured in place with a velcro flap for a tighter fit.

Features

- Fits 9mm, .40 and .45 caliber magazines
- Holds single or double stacked magazines
- Mounts vertically
- MOLLE compatible
- Available in Black, Coyote, Ranger Green, OCP and Multicam.

TRIPLE MAG PISTOL POUCH

ASP-TRIPLEPISTOL-PCH

- ▶ Holds 1 Pistol mag or hold rifle
- ▶ Works with either single or double stacked magazines
- ▶ Pistol Mag Pouch fits 9mm, .40 & .45 caliber magazines
- ▶ MOLLE compatible
- ▶ Fully adjustable shock cord retention strap
- ▶ Mounts vertically
- ▶ Available in Black, Coyote, Ranger Green, OCP and Multicam.

2 CELL FLASHLIGHT POUCH

ASP-FLASHLIGHT-PCH

The Aspetto 2 cell Flashlight Pouch is a versatile pouch that fits most of the popular flashlights used by the DOD and LE. Instead of having cost-cutting crimped bottoms like other pouches, ours has a wider diameter, all the way to the base, enhancing capacity, versatility and accessibility!! This is a slim pouch, that saves space on your web gear or belt. A secure velcro flap provides full range of length adjustability.

Features

- ▶ Material: 500D Cordura
- ▶ Heavy duty webbing.
- ▶ Can hold other accessories such as multi-Tools and pepper spray.
- ▶ MOLLE compatible
- ▶ Adjustable Velcro flap to fit different lengths
- ▶ Mounts vertically
- ▶ Available in Black, Coyote, Ranger Green, OCP and Multicam.

DOUBLE MAG KANGAROO POUCH

ASP-DOUBLEMAG-KPCH

The Aspetto Double Mag Kangaroo Pouch is designed to carry 2 M4 or .223 magazines and fits into the front kangaroo pocket of most plate carriers.

Features

- ▶ Material: 500D Cordura
- ▶ Holds (2) M4 or .223 magazines
- ▶ Low profile
- ▶ Available in Black, Coyote, Ranger Green, OCP and Multicam.

Dagger K9

K1392VO-XXX, K1392-XXX

The Dagger vest is our newest version of K9 tactical vests from Recon K9. This product follows our commitment to proven excellence and reliability in the field. After countless deployments, missions, and urban tracks, we've streamlined the Dagger vest to be the most capable, proficient, and advanced vest to date. It includes adjustable messenger sling, expansion panels, and deluxe leg straps for repelling & fast roping.

Features

- ▶ Air-rated Cobra Buckles w/ elastic covers to eliminate noise signature
- ▶ Single YKK robust zipper (neck to tail orientation)
- ▶ 4-way stretch Mil-Spec Spandura for body-glove fit
- ▶ Padded air-mesh upper, sternum plate, and stomach guard
- ▶ Reinforced soft loops for tensile strength over 5,000lbs
- ▶ 3 handles for lifting, hoisting and overall control
- ▶ Camera Mount ready

Sentinel Tracking

AMTC-K1299-XXX, K1370BLX

Streamlined for efficient movement, this harness features a removable padded chest plate and ergonomic neck strap for the strongest pullers. A sturdy Mil-Spec v-ring and tactical handle provide reliable control and protection for your K9. The addition of two rows of MOLLE, along with "loop" strips, provide ample space for badging and accessories. (Patches & Beacon not included).

Features

- ▶ Padded 1000-Denier Cordura™ body for extra strength and comfort
- ▶ Ergonomically angled neck strap to prevent choking
- ▶ 2 rows of MOLLE for attachments
- ▶ Removable padded chest plate for increased protection while tracking
- ▶ Polymer Cobra™ buckle
- ▶ Beacon holder with security strap
- ▶ Tactical polymer slim-line handle

Hoisting Leg Straps

X0103-BLX, X0126-BLX

These leg straps are an option for Dagger, Operator, Whisper and Dermal Tac Vests. Modeled after a human's mountaineering harness, the wide straps eliminate pinch points and potential nerve damage. The independent design allows the dog to hang in position while keeping the vest taught against the body, not allowing for forward creep during rope exercises.

Features

- ▶ Berry Compliant, Mil-Spec nylon 1.25" wide
- ▶ Lightweight & durable plastic "cobra" buckles
- ▶ Ergonomic design to eliminate pinch points and bunching

Tracking Long Line

AMTC-S1573-BL

Our 20' and 30' tracking leash is made from Mil-Spec tubular nylon for maximum strength and durability. The terminating end is comprised of a contrast nylon handle that includes a segment of rope providing both a visual and tactile warning that your reaching the end of your line...literally.

Features

- ▶ Contrast handle with integrated rope body for visual and tactile warning
- ▶ Tri-Fold end stop at end of leash
- ▶ Anodized black swivel snap hook
- ▶ Made in the USA

Quick Connect Universal e Collar Mount

S-1810BLM

Our innovative, universal e-collar mounting system provides a quick and secure collar for most electronic transmitters. Comprised of Mil-Spec elastic nylon coupled with traditional nylon, the collar allows for expansion due to neck swelling. It's ergonomically designed to allow you to charge your receiver without ever having to take it off the mount.

Features

- ▶ Constructed of Mil-Spec flat and elastic nylon
- ▶ Fast, side-release hardware allows for easy on/off, even with gloved hands
- ▶ Tailored to fit most receivers, including Garmin, Dogtra, SportDog & e-collar technologies
- ▶ Made in the USA; Berry compliant

Nylon Agitation Collar with Cobra Buckle

S1731-LBL

A solid choice for your hard driving K9. Made with Mil-Spec nylon, this collar is rigid & durable. Includes a soft loop to eliminate rattle from metal on metal and terminates into a mil-spec cobra buckle for added security.

Features

- ▶ 1.75" Berry complaint, mil-spec rated nylon
- ▶ Soft loop to eliminate rattle
- ▶ Cobra buckle

Ventana Agitation Muzzle

X0103-BLL

Open a "Window" to the next breed of agitation muzzles. We've streamlined the ergonomics of our muzzle to make it as light & breathable as possible, integrating reinforced mesh sides, an open nose vent and a deep tongue drop. Security & speed are the name of the game with this muzzle, which features a click-lock, quick-release buckle with a thumb cover to prevent accidental release. Made in the USA.

Features

- ▶ Open nose & side vents to allow maximum breathability
- ▶ Low-profile ergonomics with reinforced steel agitation bar
- ▶ Padded bump guards at top and nose of muzzle
- ▶ Ability to change the depth of the basket back & forth
- ▶ Quick Release lock with thumb cover for easy on & off application without accidental release
- ▶ Avail in S, M, and L
- ▶ Rolled bite bar included
- ▶ Fully lined interior
- ▶ Genuine leather muzzle with Biothane neck strap
- ▶ Made in the USA
- ▶ Available with Bite Bar - PN# X0126-BLL

Bridging Half Muzzle

X0107-BLL

The Recon K9 **Bridging Muzzle** is the ideal tool to help transition a dog into agitation muzzle work, while also developing a fuller and more complete bite. By limiting the depth at which a dog can engage, it builds drive to push harder and with more tenacity in order to grasp the target. Forget trying to cut up old muzzles, use the tool built for the application.

Features

- Domestic Leather ◀
- Reinforced nose bridge for strength & integrity ◀
- Back loop for extra-security to lash collar or carabiner through ◀
- Padded upper interior ◀
- Avail in S, M, L ◀
- Made in the USA ◀
- Color: Black ◀

K9 Parachute Jump Bag

AMTC-C1334-BLL

Recon K9 paired up with Capewell Aerial Systems who knows a thing or two about parachuting, and our K9 jump bag exhibits this expertise. Our goal was to create the most efficient and ergonomically correct K9 jump bag, paying special attention to both safety and comfort for both the handler and MWD. With countless jumps and safety tests, this bag has proven to stand up to the test and carry on Capewell's 70-plus years of providing the parachuting community with exceptional goods. Bag is certified air-worthy.

Features

- ▶ Padded 1,000-denier Cordura body construction with drainage ports
- ▶ Quick Ejector Side-Release SS hardware with tactical toggles
- ▶ Muzzle safety tether
- ▶ Fully adjustable chest straps to balance load
- ▶ Certified air-worthy

OTB Amphibious K9 Carrier System

K1321-CY

The OTB (Over the Beach) Amphibious K9 Assault Pack is the ultimate in maritime flotation for K9 and handlers. This highly customized ruck has a hinged deck, allowing it to open and expand for a full-sized working dog to deploy over the water (help-cast) in a stable, quiet environment, thus conserving energy and remaining silent. The OTB has fin pockets, armor plate carrier, & ample dry storage thanks to two Watershed(tm) assault bags with inflation stems. Ruck can double as a stable shooting platform as well for any maritime operation.

Features

- ▶ Fully Custom Trelleborg Body Construction for ultimate durability
- ▶ Polymer ruck frame with lumbar support and fully adjustable shoulder straps
- ▶ (2) removable Watershed(tm) assault packs w/ inflation stem(s)
- ▶ Fin pockets with drainage ports
- ▶ Body armor carrier envelope to reduce weight to handler
- ▶ Integrated Cache Cover
- ▶ 2" Foam Core Construction for maximum buoyancy
- ▶ Available in Coyote

Belgian Sleeve Level 3

FLBS-300

The Recon K9 Belgian Sleeve is comprised of our proprietary bite suit material, unique with antibacterial, antimicrobial treatment along with our 8-step finishing process. Worn either from the front, or simply turn it around and use the pull loop to create a firm bite profile for the K9. This Level 3 sleeve is light, responsive, and yet offers enough protection to go in for more.

Features

- ▶ A Recon K9 proprietary fabric with an antimicrobial & antibacterial treatment along with our exclusive 8-step finishing process.
- ▶ Hi cut shoulder cuff to ensure the protection needed worn either in the front or turned around.
- ▶ Level 3 felt lined with additional bite suit material liner
- ▶ Slick liner for easy removal
- ▶ Made in the USA
- ▶ One Size

Standard 3-Handle Loop Bite Pillow

BP-FL12

Engage your canine with our 3-handle bite pillow. Choose from either our durable natural jute & cotton blend or our black bite suit material. Pillows are constructed with foam padding and ballistic liner materials. This enticing tool will help generate targeted bite work. A reinforced nylon loop under the top handle provides an anchor point for tossing and retrieving pillow drills.

Features

- ▶ Secure & durable fire hose construction
- ▶ Strong & durable jute construction
- ▶ Three handles and nylon loop for tease n' toss drills
- ▶ Available in natural jute or bite suit material
- ▶ Made in the USA

Weighted K9 Bite Pillow

WS-JP12

Whether you're conditioning your canine for more power and grip strength, or rehabbing an injury, these weighted bite pillows are the ultimate tool. The padded jute exterior provides a perfect bite target, while the pocketed interior allows the handler to adjust the secured weight to gradually build up neck, jaw, and surrounding muscles. Comes standard with a 3lb weighted insert.

Features

- ▶ 2 handle jute exterior body for traditional bite work
- ▶ Secured hidden pocket allows handler to insert multiple weight sizes
- ▶ Perfect for canine conditioning or rehab
- ▶ 3lb., 5lb., and 7lb. weights available
- ▶ Secured with hook & loop and leather buckle
- ▶ Made in the USA
- ▶ Available in Jute and French Linen

Ballistic Nylon Hidden Sleeve

BN-HS88LG

Our Mil-Spec 1,000-denier ballistic nylon hidden sleeve incorporates multiple layers of cross-sewn nylon and felt to provide a durable, low profile solution. Whether for sport or on the job training, this is a versatile and reliable option for the handler looking for a quality hidden sleeve.

Features

- ▶ A Recon K9 proprietary fabric with an antimicrobial & antibacterial treatment along with our exclusive 8-step finishing process.
- ▶ Hi cut shoulder cuff to ensure the protection needed worn either in the front or turned around.
- ▶ Level 3 felt lined with additional bite suit material liner
- ▶ Slick liner for easy removal
- ▶ Made in the USA
- ▶ One Size

Long Line External Plate Carrier Stuff Pouch

P1541-BL

Never get caught without your tracking long line again. When time is of the essence, simply reach down from your plate carrier and hook up your K9 to unspool your tracking lead. Made with 4-way stretch, mil-spec rated Spandura, the long line pouch can accommodate 15ft' to 30ft' tracking lines with no problem, while keeping your line in a tight, snag-proof sleeve to ensure proper deployment each and every time. Pairs perfectly with our 30' long line, S-folded inside.

(Long line sold separately)

Colors: Black or Coyote

Features

- ▶ 4-way stretch mil-spec Spandura
- ▶ 2 cinch pulls to ensure long line security
- ▶ Large tuck flap that sandwiches inside your plate carrier
- ▶ Adaptable for any size long-line up to 30ft.
- ▶ Pairs perfectly with CK9 30' tubular nylon tracking line

Daisy Chain Hoisting Strap

S1622-BL

Our hoisting strap includes multiple daisy chained attachment points to allow you to quickly adjust the orientation of your K9 for hoisting and/or lowering applications. Anchored by two stainless steel carabiners, the strap can remain stowed on the top of your vest via "hook & loop" attachment on the top of your tactical vest.

Features

- ▶ 5 daisy chained attachment points
- ▶ Berry Compliant, Mil-Spec nylon
- ▶ Black anodized stainless steel carabiners
- ▶ Stowable via hook & loop attachment on bottom of strap

Messenger Sling

S1691-BL

The Messenger sling allows the handler to "purse carry" their K9 in quick order by attaching the stainless steel swivel hooks to the receiving loops on your Operator or Recon harnesses. Quick to apply and simple to adjust on the fly. Get your canine Up n' at 'em in no time.

Features

- ▶ Berry Compliant, Mil-Spec nylon
- ▶ Stainless Steel slide adjusters
- ▶ Black Anodized stainless steel swivel snaps

Quick Connect Camera Mount

X0097-BL

Camera related intel is only as good as the image you receive, which means it needs to be stable. Our multi-purpose mounting plate integrates seamlessly into the TSE water-proof K9 camera, yet can also accommodate standard Go-Pro mounts, commercial "action" cams, etc. Beyond cameras, our mounting plate offers the perfect solution for any payload, lighting, or comms packages utilizing our light-weight, aircraft grade aluminum chassis. The plate mounts directly to the our Operator and Recon vests using two high density polymer tension straps for quick on and off application.

Features

- ▶ Berry Compliant, Mil-Spec nylon
- ▶ Stainless Steel slide adjusters
- ▶ Black Anodized stainless steel swivel snaps

Weight inserts for Bite Pillow

3WP

Whether you're conditioning your canine for more power and grip strength, or rehabbing an injury, our weighted bite pillows are the ultimate tool. The padded jute exterior provides a perfect bite target, while the pocketed interior allows the handler to adjust the secured weight to gradually build up neck, jaw, and surrounding muscles. Available in 3lb, 5lb, and 7lb. sizes. You can stack weights inside pillow as well.

Features

- Reinforced firehose material ◀
- Reinforced Edges for extra security ◀
- Finger loop for easy access while inside pillow ◀

35

SRV

SRVZADK10J

Adaptability is key when responding to any operation. The Special Response Vest (SRV) allows an operator to quickly remove and configure the panels of the vest with various pouches, to meet mission specific requirements. Fast and easy to don and doff, the SRV is not only exceptionally comfortable but also highly functional in its protective scalability.

Features

- ▶ Ergonomically designed for greater maneuverability
- ▶ Durable MOLLE compatible webbing
- ▶ Trap/shoulder pads with ballistics that can be inserted (sold separately)
- ▶ Narrow cummerbund available in SM-4XL
- ▶ Front hard armor plate pocket accommodates Shooter's Cut Plates
- ▶ Back hard armor plate pockets accommodates Shooter's or Rectangle Plates
- ▶ MOLLE ID Panel area

FAS-TC

FA2U00CS0J

Side Opening Light Tactical Vest.

Features

- ▶ Exceptionally strong and durable 500 denier CORDURA® outershell construction
- ▶ Available with NIJ-Standard-0101.06 Level IIIA ballistic systems
- ▶ Front and back top loading plate pockets fits 8" x 10" or 10" x 12" hard armor plates (Size dependent)
- ▶ MOLLE compatible webbing attachment system accommodates equipment pouches in the front and back of the carrier
- ▶ One size fits most, adjustable shoulder straps for improved fit and comfort
- ▶ External cummerbund composed of hook/loop closure on the front flap of the carrier and bungee lace adjustment system behind the back flap of the carrier

Hard Armor Plates

Model 10800- NIJ 0101.06 Level IV Stand Alone Plate

Mil™ 1R Unit MIL 1 5442 B

A geotextile-lined recoverable unit for general use as an earth-filled barrier. The units are suitable for filling with earth, sand, gravel, crushed rock and other granular materials. The unit fulfills a wide range of uses, including the construction of protective walls and barriers.

General Specifications

- ▶ Geotextile-lined welded mesh barrier coated to ASTM A 856. All wires conform to BS EN 10218-2:2012. Zinc-Aluminum coatings are to BS EN 10244-2:2009, where appropriate.
- ▶ The geotextile is a heavy-duty, non-woven, permeable, polypropylene fabric, available in either beige or green color.
- ▶ All dimensions and weights are nominal. Diagrams and product images are for illustrative purposes only.

TERRABLOCK®XS TB XS

TERRABLOCK is a patented range of surface mounted, high security barriers, designed, engineered and tested to provide hostile vehicle mitigation, blast and ballistic protection and deter unauthorized access. The combination of an integrated vehicle barrier and climb resistant weldmesh panel enables rapid installation through a single, surface-mounted system, removing the need for foundations. The simple and modular design of HESCO TERRABLOCK provides the ability to upgrade the installation in response to changing threat levels, whilst minimizing the installed impact.

General Specifications

- ▶ TERRABLOCK XS combines an integrated geotextile lined weldmesh foundation section and weldmesh anti-climb panel with zinc-aluminum coating to ASTM A 856/BS EN 10244-2:2009. Polyester powder coating is available on request in either Anthracite RAL 7016 or Green RAL 6005.
- ▶ The geotextile is a heavy-duty, non-woven, permeable, polypropylene fabric, available in either beige or green.

Mil™ 5 Unit MIL 5 2424 G

A geotextile-lined unit for general use as an earth-filled barrier. The units are suitable for filling with earth, sand, gravel, crushed rock and other granular materials. The unit fulfills a wide range of uses, including the construction of protective walls and barriers.

General Specifications

- ▶ Geotextile-lined welded mesh barrier coated to ASTM A 856. All wires conform to BS EN 10218-2:2012. Zinc-Aluminum coatings are to BS EN 10244-2:2009, where appropriate.
- ▶ The geotextile is a heavy-duty, non-woven, permeable, polypropylene fabric, available in either beige or green color.

Overall Features

- Full flame-resistant construction with proprietary 4-way stretch
- Massif® fabrics
- Selected for inclusion as the Army's Intermediate Weather Outer
- Layer in the FREE system
- Highly water-resistant, windproof, breathable membrane
- Superior Durability
- Low-profile ergonomic fit

Cirrus High Loft Jacket & Pants

MJKT000860-OCP-REG-M

The Massif® Cirrus High Loft Jacket and Pant is an extreme cold weather layer, worn when you need protection from the most challenging environments.

Overall Features

- ▶ Advanced materials and design decrease overall weight and bulk while increasing durability
- ▶ Simplified functionality provides ultimate performance
- ▶ Warm when wet

Bolt Ballistic Glasses

F68K 4CSTB

Lens Tech:

- ▶ Ballistic Shatter-proof 2.2 mm Polycarbonate lenses
- ▶ Certified to EN166FT KN CE ANSI Z87.1-2020
- ▶ Optical Class One lens – Unrivalled clarity and distortion free
- ▶ Maximum UV Protection
- ▶ Anti-Fog and Anti-Scratch lens coating
- ▶ In-house testing of 744ft/s (227m/s) high impact
- ▶ Exceeds MIL-PRF-32432A (clause 3.8.4.1)
- ▶ Tested to extreme temperatures -5°C to +55°C FT

Frame Tech:

- ▶ Superior TR90 NZZ Ballistic Frame Material is stronger, lighter, and more comfortable than traditional nylon tactical frames.
- ▶ Flexible and Virtually unbreakable
- ▶ Fully adjustable nose pads for the best comfort and fit
- ▶ Bi-Molded comms compatible non-slip temples
- ▶ Rapid change lens-lock system allows for all lens types and colors to be quickly and easily swapped out.

HAWKfire XR Polarized

F78K 4CSTB

Lens Tech:

- ▶ Ballistic 2.8 mm Polycarbonate lenses
- ▶ Polarized and Laser lens options
- ▶ 180 m/s with .22 (in-house)
- ▶ Certified to EN166 7.3.2 BT KN CE
- ▶ Certified to ANSI Z87-2015
- ▶ Optical Class One lens – Unrivalled clarity and distortion free
- ▶ Maximum UV Protection
- ▶ Anti-Fog and Anti-Scratch lens coating

Frame Tech:

- ▶ Superior ballistic frame material
- ▶ Flexible and virtually unbreakable
- ▶ Adjustable head strap, helmet compatible
- ▶ Anti-drip / Anti-melt Technology
- ▶ Inter-changeable lens system
- ▶ Fully ventilated frame with micro-foam to block dust and fine particles
- ▶ RX Carrier (compatible with other BLOC tactical models)

Predator

C41 1PLFB

Lens Tech:

- ▶ Ballistic Shatter-proof 2.5 mm Polycarbonate lenses
- ▶ Certified to EN166FT KN CE ANSI Z87.1-2020
- ▶ Optical Class One lens – Unrivalled clarity and distortion free
- ▶ Maximum UV Protection
- ▶ Anti-Fog and Anti-Scratch lens coating
- ▶ In-house testing of 744ft/s (227m/s) high impact
- ▶ Exceeds MIL-PRF-32432A (clause 3.8.4.1)
- ▶ Tested to extreme temperatures -5°C to +55°C FT

Tactikka® +RGB E089FA00

Compact headlamp with mixed beam for proximity and distance vision. White or red/green/blue lighting. 350 lumens.

Features

- ▶ The TACTIKKA +RGB headlamp offers 350-lumen brightness and a mixed beam for comfortable proximity lighting and rapid movement.
- ▶ It also has red, green or blue lighting to ensure stealth.
- ▶ TACTIKKA +RGB comes with 3 standard batteries and is also compatible with the CORE rechargeable battery, thanks to its HYBRID CONCEPT design.
- ▶ Mounting accessories allow the lamp to be attached to any kind of helmet, or to a bicycle.

Exo® Eashook Open

D030HA00 (with carry bag) / D030JA00 (Without carry bag)

Features

- ◀ It has a self-braking system for quickly giving slack, controlling and stopping a descent, and limiting the force transmitted to the user in the event of a fall.
- ◀ The open directional point serves as a rope guide during descent, while allowing the rope to be removed to facilitate short rope ascents.
- ◀ Includes a rope that resists wear and high temperatures, an Am'D connector with CAPTIV positioning bar, and a bag for transporting and attaching the system directly to the harness.
- ◀ Other rope lengths are available by special order.

Helo Adjust L44IHE 065

Releasable, adjustable restraint designed for Military and Law Enforcement use only. The HELO ADJUST is a restraint device intended to limit passenger movement while traveling inside of helicopters, when seatbelts or other restraint systems are not available or mission appropriate.

Features

- ▶ very quick and efficient length adjustment due to the ergonomic shape of the ADJUST rope clamp
- ▶ EASHOOK OPEN carabiner is simple to handle, and allows for rapid connection and/or disconnection to the helicopter anchor
- ▶ use of semi-static rope reduces the impact transmitted to the user and increases overall durability
- ▶ snap shackle allows for rapid release, even under load, in case of emergency, and pull tab with security snap reduces accidental activation

ASPETTO

Lemur Full Body Harness

MS11020GRR

Lemur harness is well-suited for many job types and environments. Modern anatomical design of this harness with high attention to detail for comfort and features allows you to wear this harness all day long while working at height. This harness is ANSI/ASSE Z359.11-2014 made with high quality materials and designed to give you years of performance.

Features

- ▶ Two Sizes
- ▶ Mini-Gear Loops for Independent Attachments
- ▶ Comfort Seat Mounting Loops
- ▶ Breech Support Anatomical Workseat
- ▶ Quick Release Safety Buckle attaches top to bottom
- ▶ Foundationally Integrated Strap System
- ▶ Quick-Link Attachment
- ▶ Shaped Gear Loops

Adjustable 4 leg litter spider made from 10 mm PMI® Classic static rope and 6 mm prusik cord tied on a forged O-ring. Litter and carabiners in photo not included.

PMI® Classic Spyder

PE42021

Features

- ▶ Legs are independently adjustable
- ▶ User can add the PMI®/SMC Deluxe or JR Haul System to convert this to a litter scoop system
- ▶ Comes with 4 meter long attendant line & storage bag

12.5 mm PMI® Dura-Shield General Use Rope

HS125TG000A

A brand new PMI rope, DuraShield™ is an excellent choice for rope access work for anyone needing rope with superior sheath abrasion and heat resistant properties such as those performing work at bridges, dams, towers or industrial sites. If there is a chance your rope may contact a sharp edge, hot pipes, or anything hot nearby, consider this rope for the job. The sheath is 100% Technora® featuring a high tensile strength, good fatigue resistance, heat resistance, excellent dimensional stability, and chemical resistance.

Features

- ▶ Sheath - 100% Technora®
- ▶ Core - 100% Nylon 6,6
- ▶ High modulus of elasticity
- ▶ Low creep
- ▶ Low thermal shrinkage
- ▶ Thermal decomposition threshold 500°C (932°F)
- ▶ Can be used for long periods at a temperature of 250°C (482°F)

PERFORMANCE REVIEW INSTITUTE

MFR-DB-SDR

MFR-DB-SDR-P-B

The MFR-DB-SDR incorporates both optical and thermal cameras in an environmentally sealed rugged PTZ unit. It incorporates the DTC Software Definable Radio which has a configurable transmission method and encryption standard. Whilst Mesh transmission method is the first choice, COFDM point to point transmission is also supported as a system option, which operates along side a UHF telemetry module for system control. The build is modular such that it can be configured to include an optional power amplifier to increase system range and the option to add a battery power source. It incorporates a Sony HD camera with a 30x optical zoom lens and a 63.7° wide angle of view. The Flir thermal camera incorporates radiometric technology which delivers high precision temperature monitoring. It supports an 8x digital zoom and spot metering to further optimise the exposure control for each particular scenario. The transmitted video output can be user switched between either camera as and when required. The zoom is synchronised between the two cameras, up to the maximum FOV capability of the thermal camera. This allows convenient switching between the two camera views. The pan and tilt axes have absolute position feedback, which allows the camera to self correct its actual position if external forces act upon it. It also supports user presets that can be saved allowing PTZ framing and camera racking profiles to be easily recalled. The pan and tilt drive trains reduce noise to a minimum with pan speeds up to 100° per second. The outer casing is machined from aluminium, all external mating surfaces are gasket sealed to maintain the IP67 environmental rating.

TM-K9

TM-K9

The TM-K9 is a wireless camera system specifically designed for canine use, it is comprised of two main components, the TM-K9 Camera and the TM-RX Receiver, both of which contain a Mesh enabled radio. The system has been designed for ease of use, effectively operating straight out of the box. Demand for system flexibility has led to Mesh being the first choice for video transmission. A digital Mesh radio network allows encoded video and audio to be exchanged and shared between several nodes simultaneously. COFDM point to point transmission is supported as a system option with a UHF telemetry option to support system control whilst in this mode. Both the TM-K9 and TM-RX are battery powered with the supplied Li-Ion batteries, these can be recharged using the charger supplied in the kit and are compatible with both units, reducing system complexity. The TM-K9 is typically mounted on the dog's spine, it offers excellent range and can typically operate 150m in a non-line of sight scenario even in the most demanding and cluttered of RF environments. The TM-K9 also incorporates modulated IR and white LEDs, this is housed in an innovative rugged waterproof enclosure with a sprung loaded arm, which when released activates the system. Canine handlers can observe the dog's POV video using the TMRX Receiver, which incorporates a joystick, button and touchscreen interface allowing the user to control a wide range of system parameters. Two way audio communications between the dog and handler are supported, as is GPS positioning and the option of on-board video recording. Security of the link is ensured either through standard DES encryption or optional AES128 or AES256.

TM-RX Receiver

TM-RX

The TM-RX Receiver is a fully portable Mesh enabled digital diversity receiver which incorporates a DTC Software Defined Radio, a high resolution scratch resistant daylight viewable video screen, a flexible antenna pair and a battery. This is all housed in a compact rugged waterproof enclosure. The integral battery can provide power for >2 hours during continual operation. Batteries can be recharged using the charger supplied in the kit. Demand for system flexibility has led to Mesh being the first choice for transferring video. A digital Mesh radio network allows encoded video, audio and data to be shared between several nodes simultaneously. The reception of COFDM point to point type RF transmission is also supported as an option. On screen diagnostics provides the viewer with vital information such as the RF status and battery levels on both sides of the link. GPS position of both the TM-RX and a GPS enabled transmitter are displayed together with a distance delta between the two. A joystick, button and touch-screen interface with silent vibration feedback allows the user to control a wide range of device parameters and also control remote cameras. Its external Fischer connectors support a direct Ethernet connection and an audio headset interface. The screen is manufactured from Gorilla glass, making it scratch resistant and resilient to being dropped. The brightness of the screen is adjustable so as to allow viewing in differing daylight levels. The internal 256GB solid state hard disk ensures video recordings and screen snapshots can be easily archived for future reference. Security of the link is ensured either through standard DES encryption or optional AES128 or AES256.

PVS-14 Omega 3AL1

11PO4123453111

The AGM NVG-40 is a dual-channel night vision system. With a 40° field of view, it provides a large visual field without needing to move the binoculars. The NVG-40 uses advanced multi-coated optics and is built to last with a compact composite housing. Operating from a single AA alkaline battery or CR123A battery, the NVG can run up to 20 hours. Also equipped with an integral infrared illuminator for reading in the dark.

Features

- ▶ Full Diopter Adjustment Range.
- ▶ Infrared LED.
- ▶ Gain Control.
- ▶ IR/Low Battery Indicator.
- ▶ Flip up turn off and flip down turn on system and the capability to be hand-held, mounted on the helmet, or headgear.

NVG-40 3AL1

14NV4123453111

The AGM NVG-40 is a dual-channel night vision system. With a 40° field of view, it provides a large visual field without needing to move the binoculars. The NVG-40 uses advanced multi-coated optics and is built to last with a compact composite housing. Operating from a single AA alkaline battery or CR123A battery, the NVG can run up to 20 hours. The NVG-40 is also equipped with an integral infrared illuminator for reading in the dark.

Features

- ▶ For hands-free use of the NVG, it can be installed to many various mounts, such as the AN/PVS-7D, AN/PVS-14, AN/PVS-7A/C, AN/PVS-15, and AN/PVS-18 mounts, or to the mounts with mini-rail interface
- ▶ NVG Interface Shoe (preinstalled) is used for installing the NVG to a either standard dovetail type headset and helmet mount.
- ▶ Bayonet/Horn Interface Shoe (included) is used for installing the NVG to a either standard bayonet/horn type headset and helmet mount.
- ▶ NVG Interface Shoe with Connector (optional) is used for installing the NVG-40/NVG-50 to either standard dovetail type headset and helmet mounts and connecting the Battery Pack.
- ▶ Mini-Rail Interface Shoe is used for installing the NVG to the mounts with mini-rail interface. Mini-Rail

NVG-40 3AW1

11PO4123453111

The AGM PVS14-OMEGA is the lightest multi-purpose night vision monocular currently available. The ultra-light PVS14-OMEGA is designed with new MIL-SPEC light weight optics and an improved battery compartment equipped with digital push button switches that reduces the total weight of the system from 350 grams to only 240 grams. The modified AGM PVS14-OMEGA retains all the characteristics of a normal AN/PVS-14, but in smaller housing dimensions.

Features

- ▶ For hands-free use of the NVG, it can be installed to many various mounts, such as the AN/PVS-7D, AN/PVS-14, AN/PVS-7A/C, AN/PVS-15, and AN/PVS-18 mounts, or to the mounts with mini-rail interface
- ▶ NVG Interface Shoe (preinstalled) is used for installing the NVG to a either standard dovetail type headset and helmet mount.
- ▶ Bayonet/Horn Interface Shoe (included) is used for installing the NVG to a either standard bayonet/horn type headset and helmet mount.
- ▶ NVG Interface Shoe with Connector (optional) is used for installing the NVG-40/NVG-50 to either standard dovetail type headset and helmet mounts and connecting the Battery Pack.
- ▶ The AGM PVS14-OMEGA operates with just 4 controls, similar to the AN/PVS-14: one button for power on/off, one button for turning on and off the IR LED, and two switches (+/-) for raising and lowering the Gain Control.

GRIZZLY TARGETS

Trifecta 3/8 AR500 Target System

GT026 / GT027

Three Four 3/8 AR500 Steel spring loaded poppers on one target.

Features

- ▶ Once hit, target springs back up automatically
- ▶ Compact enough to fit in trunk of car
- ▶ Easy to use yet challenging to hit
- ▶ Legs, body and brackets are hot-dip galvanized to ensure a rust-free target

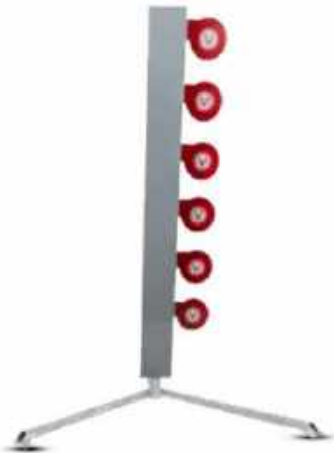

Dueling Tree

GT022

An industry steel target classic, with a few custom upgrades to make it last. The Grizzly Rifle Rated Dueling Tree main body is our classic dueling tree style steel target, what we did different is make it commercial grade, portable, then we hot-dip galvanized it so it will never rust.

Overall Features

- 6 Dueling Tree Target Paddles are each 6 W x 3/8" thick factory tested AR500 steel
- A reactive target that swings side to side upon being hit, resetting via inertia
- Internal mechanisms are protected by a 3/8" AR500 front guard
- Front Guard is removable for easy replacement if needed
- Made of 3/8 AR500 steel, rated for Rifle up to .308, and Handguns under 3,000 fps at the target

IPSC Center Hang Target

GT094

A great hostage scenario target that automatically resets and keeps you guessing.

Specs

- ▶ Red AR500 Hostage Plate swings side to side when hit
- ▶ Hostage Plate measures 5" wide and 3/8" thick
- ▶ Main body (IPSC Plate) Swings backwards when hit
- ▶ Pitched at angle to drive bullet splatter downwards
- ▶ Rated for Handgun AND Rifle
- ▶ Hot-dip Galvanized back bracket that will never rust
- ▶ Made of 3/8 AR500 steel, rated for Handgun, Rifle and Shotgun
- ▶ Works great with any of our stands and even better with the Galvanized Steel Post

3-IN-1 Parka 2.0

48358-019-M

We took our original 3-in-1 Parka™ and re-engineered it to perform even better. The 3-in-1 Parka , 2.0 offers mechanical stretch for improved flexibility in the field —and it's now 13% lighter.

Features

- ▶ Upgraded with an improved 10K waterproof and 10K breathable fabric with DWR, the 3-in-1 Parka 2.0 provides Blood Borne Pathogen resistance.
- ▶ The six-pocket outer shell features mic loops, camera loop kit, hood that can be rolled into the collar or detached and stored in back pocket, hidden utility pockets and pull out ID panels for easy on duty identification.
- ▶ A 5.11® ReadyPocket™ on both the left and right chest stores your phone, sunglasses or extra magazines.
- ▶ We added a new Quixip® system on the sides for rapid firearm access and enhanced ventilation.
- ▶ The warm and breathable fleece liner, with improved lining, cuffs and added document pockets

Helios Polos

41192-019-M

Built from snag-resistant knit fabric, the Helios Polo is moisture wicking, quick-drying, and anti-odor; all of which means you'll stay nice and cool when the weather gets hot and sticky. With underarm gussets to provide full range of movement, front mic-clip pockets, shoulder mic loops, and a sunglasses loop, you'll be ready for anything life throws at you.

Features

- 100% polyester jersey with Enduro-Flex™ properties, 4.5-oz., wicking & anti-odor finish
- Features snag-resistant, pilling and abrasion resistant fabric
- Shoulder mic pockets and sunglass loop at placket
- Embroidery-friendly pen pocket at sleeve
- Melamine buttons won't burn, crack, or melt

5.11 Tactical® Pant

74251-055-32-30 (size 32x30)

The first tactical pant—the true original that's been serving public safety professionals for decades. Made of 100% cotton canvas, the 5.11 Tactical Pant is constructed for superior durability, comfort, and performance. Featuring our trademarked strap-and-slash pockets, an adjustable waist, and double-reinforcement at the seat and knees.

Features

- ▶ 100% cotton canvas, 8.8-oz
- ▶ Adjustable waist
- ▶ Trademarked back strap and slash pockets with double seat
- ▶ Knee patch pocket to accommodate knee pads
- ▶ Hemmed pants have channels for optional hem cords

50

V2 Tactical Pants

114011

The V2 Pant is the culmination of two decades of improvement and modifications to the industry standard. This tactical pant is performance ready and purpose-built to handle any mission that arises while maintaining the neat, clean and professional look required for public safety.

Specs

- ▶ V2 Fabric Technology with two-way mechanical stretch
- ▶ 6.4 oz. 65% polyester/35% cotton
- ▶ Double Dyed Fabric
- ▶ Micro ripstop
- ▶ Teflon® Shield+ stain repellent finish
- ▶ YKK® zippers
- ▶ Prym® snapstandalone five-pocket tactical jacket when

V2 Pro Performance Shirt

111015

The V2 Pro Performance Shirt is a hybrid design developed with input from Law Enforcement and Tactical Operators that combines our best selling Performance Polo with our V2 shirt. The result is a new lightweight base layer that is perfect for use with an external carrier.

Specs

- 65% Polyester/35% Cotton, 3.9 oz double ripstop
- V2 Technology Mechanical Stretch with Teflon® stain repellent finish in the sleeves and collar
- 100% Polyester anti-snap jersey body, with wicking + anti-odor finish
- Woven sleeves
- No curl collar with integrated collar stay
- Running gusseted construction under the arm

Defender Series Pants

114002

First Tactical's Defender Series Pants are the best of both worlds: performance built to handle any mission while maintaining the professional look needed when on normal patrol. In the performance department specialized pockets (28 in total) boast ample space for oversized gear, magazines, and all other equipment. Articulation is at the forefront of design as articulated knees, running gussets throughout, and vented mesh pockets provide advancement movement and breathability. Ventilation in multiple key areas make these the ideal warm weather pants.

Specs

- ▶ 55% Cotton, 45% Cordura® Nylon
- ▶ 6.9 oz. 2-way mechanical stretch Nyco fabric with double ripstop and moisture wicking finish
- ▶ YKK® zippers
- ▶ Prym® snaps
- ▶ Duraflex® pulls

LPC KE-430-4

Leather Personnel Carrier - Whether you're active duty or just plain active for work or play, the LPC offers you Kenetrek's best features the way you asked for them, in military Coyote Brown. With three climate options from non-insulated, insulated to extreme insulation, and your choice to add steel toes to each model - maybe we should have named these "Personal" instead of "Personnel" Carriers? 4 lbs.

Specs

- ▶ 8" tall, 2.8mm thick full grain rough-out leather uppers in Coyote Brown (color)
- ▶ Full-length, super support, tapered 7mm nylon midsoles conquer any terrain
- ▶ High traction deep lugged, oil resistant K-73 outsoles with increased toe and heel taper
- ▶ Non-insulated for comfort in warmer climates
- ▶ Windtex waterproof membrane
- ▶ Three levels of Insulation; Non-insulated, 400g, or 100g
- ▶ Steel toe options available

Hard Tactical KE-85-TAC

Whether in full pursuit, driving down the road, or on your feet all day, these very light, black tactical style boots are designed for a 24/7 workout. The padded collars and special flex notch gives you high-top tennis shoe comfort built on our mountain hunting boot support system. The Hard Tactical features a high traction Kenetrek Grapon™ Outsole. Made in Europe. 3.9 lbs.

Specs

- ▶ 8" tall 2.8mm thick premium full grain leather uppers with one piece vamp construction with no seams down the tongue for abrasion resistance and waterproofness
- ▶ Reinforced double and triple stitching in high wear areas
- ▶ 7mm nylon midsoles for extra support with pack loads
- ▶ Extra padded soft collars with special flex notch upper design for incredible support and superior comfort
- ▶ Boot hardware that swivels instead of breaking
- ▶ Non-insulated for comfort in warm temperatures
- ▶ Windtex® waterproof breathable flexible membrane

Mountain Extreme KE-420-NI

When you're hunting Dall Sheep in the Mackenzie Mountains of the Northwest Territories, you may be surprised with six inches of snow in August. Others may wait it out in the tent, but your Extremes give you the wherewithal to continue hunting no matter what. There's nothing tougher than high altitude sheep hunts and no boot tougher and more comfortable than these. Made in Italy. 3.9 lbs.

Specs

- ▶ 10" tall 2.8mm thick premium full grain leather uppers with one piece vamp construction with no seams down the tongue for abrasion resistance and waterproofness
- ▶ Reinforced double and triple stitching
- ▶ 7mm nylon midsoles for extra support with pack loads
- ▶ Boot hardware that swivels instead of breaking
- ▶ Reinforced rubber sole guard for extra abrasion resistance
- ▶ Windtex® waterproof breathable flexible membrane
- ▶ Lightweight K-Talon™ outsoles provide excellent traction
- ▶ Three levels of Insulation; Non-insulated, 400g, or 100g

IFAK Insert Kit

#01237

The Gen 2 TMK-IFAK Pouch and Insert Kit includes the necessary medical supplies to treat the three leading causes of preventable deaths on the battlefield: bleeding, tension pneumothorax, and airway obstruction.

Features

- ▶ The TMK-IFAK Pouch and Insert Kit merges the unique capabilities of the IFAK Pouch and IFAK Insert into one complete system providing quick and easy access to medical supplies.
- ▶ When needed, simply use the access tab to open the pouch, grab the large red handle to extract the Insert, and deploy the Insert in one fluid motion.
- ▶ You can also tether the Pouch and Insert together so that essential medical gear is always within reach and can never be lost.
- ▶ Improvements to our Gen 2 Pouch and Insert include the addition of plastic side stiffeners in the Pouch, allowing for smoother, easier loading and one-handed deployment of the Insert.

Individual Operator Kit

#01274

The Chinook Tactical Medical Kit - Individual Operator (TMK-IO) contains essential medical supplies for an individual operator to administer immediate medical attention based on the three leading causes of preventable death on the battlefield.

Features

- ▶ The Individual Operator features an adjustable and removable thigh-mount system with a zippered outer pocket.
- ▶ A two-layered lower pocket.
- ▶ Internally, there is a three-layered upper pocket system.
- ▶ System, elastic retainer band for tourniquet placement all designed for easy access while still mounted.
- ▶ Made of 500 denier Cordura Nylon and is MOLLE compatible with PALS webbing.
- ▶ The Coyote Brown TMK-IO is available on ECAT.

Combat Lifesaver Kit

#01276

The Chinook Tactical Medical Kit - Combat Lifesaver (TMK-CL) bag.

Overall Features

- ▶ A removable center panel that has an elastic retainer loop system on one side, a clear zip-closure pocket on the opposite side.
- ▶ A large hook-and-loop closure pocket in between.
- ▶ The side retention straps prevent contents from falling out while the user is wearing the kit.
- ▶ The waist strap also doubles as a shoulder strap for quick mobility.
- ▶ Bag is Berry Amendment Compliant, made of 500 denier Cordura nylon and MOLLE compatible with PALS webbing.
- ▶ The Coyote Brown TMK-CL is available on ECAT.

57

Medical IFAK Pouch

AFAK-CB-F

The Aptus IFAK was designed to be easily accessible no matter where it is mounted yet securely retained.

Features

- ▶ It can be mounted via MOLLE/PALS or belt loop. It can also be mounted with the optional FUPA (Flexible Under Plate Adapter) kit to make it a hanging style pouch. The front of the IFAK has a 2"x3" field of loop for attaching patches to identify the IFAK as a medical pouch. It also has two elastic retention bands on the top and bottom that are able to hold all CoTCCC recommended tourniquets, shears, our Talon hook knife, gloves, or other similar sized items.
- ▶ The IFAK can be accessed ambidextrously via our unique tab and pull handle system designed to be tactilely unique when grabbing with gloved hands, in the dark, or out of the end user's sightline.
- ▶ The insert is a hook and loop closed quad fold design eliminating the possibility of a jammed zipper due to dirt, debris, or sand.

MORALE TAGS

Tactical Wallet

W-BLANKBLACK

Our Tactical Wallets start with a SCRATCH RESISTANT "Gorilla" coating and engrave down to the metal, creating a wallet that is as durable as it is functional.

Features

- ▶ RFID blocking ensures your information isn't stolen by criminals using technology to scan for credit cards.
- ▶ If you use an ID card, place under the money clip for fast access and scanning capabilities to prevent frequent wallet removal.
- ▶ Durable Money Clip on the back makes it so you don't have to carry your bills loose in your pocket.
- ▶ Everything stays neat and organized

Hat Clips

HCA35-FLAG-BLACK

Show off your unit morale or commemorate an event!

Features

- ▶ Customize-able. We can engrave your emblem/logo, names, retirement dates etc.,
- ▶ Fits Great on Any Hat
- ▶ Lifetime Warranty
- ▶ Available in: Black, Copper, Red, Blue, Pink and Lime Green

Weighted SAPI Training Plates

SASS-SAPI-TRAINER-SM

These Weighted non-ballistic training plates were manufactured to mimic the ESAPI plate currently issued by the D.O.D. They are manufactured in all five ESAPI sizes, (extra-small through extra-large) and made to match the outer dimensions. They will be the exact same weight as the current issue ESAPI plates, but are available in different weights as well, to meet mission specific needs. Each plate is built to single curve specs for comfort and has a powder coat finish to protect the steel base material. These plates are currently in use at JBSA Lackland USAF base (700 pair) and several other agencies.

Features

- ▶ 100% American Made.
- ▶ Constructed of Durable high carbon steel.
- ▶ Non-ballistic plates are for training only.
- ▶ Made to exact ESAPI dimensions (2D).
- ▶ Available in many different weights to accommodate end user.
- ▶ High density foam backers available (sold separately).
- ▶ Available in Black, Green, or Tan powder coat finishes.

SOC Sling Primary Rifle

SOC-PRC-V1-BLK

The Special Operations Combat Sling (SOC) Sling was designed by United States Marine Corps and OEF, OIF and special operations veterans. The SOC Sling is a modular two-point sling, which can be converted to a one-point sling in seconds while the operator is wearing the sling and rifle. The SOC Sling may be installed on nearly every modern combat weapon from AR style weapons to the AK-47 to the Tavor.

Features

- SOC Sling allows for rapid extension and reduction of the sling's slack adjust the sling's overall length.
- operator can adjust the SOC Sling's slack by simply pulling a tab.
- The sling also comes with a quick release mount remove with the push of a button.

Ankle First Aid Kit

SASS-AMEDP-BL

The Ankle Medical Pouch is a low visibility medical pouch that is designed to be worn around your ankle. With multiple built-in pockets, your EDC (everyday carry) kit and medical supplies will fit securely and deploy quickly from this pouch. We use an anti-microbial flame-resistant spacer mesh for the construction of the body of this cargo cuff. This keeps it very breathable, stink free and makes it the absolute lightest AFAK on the market.

Features

- ▶ Constructed of durable 500 Denier Cordura and NASA breathable mesh in the U.S.A.
- ▶ Lifetime Warranty
- ▶ Velcro opening/closure system
- ▶ Lightest AFAK on the market
- ▶ Internal spacer mesh padding is anti-microbial and flame resistant
- ▶ No drip - no melt materials
- ▶ Multiple pockets for your EDC kit or medical supplies.

Stratus Armament

SFPB Parachute Bag

SFPB-L-C

The large SFPB is designed specifically for standard Military Freefall Parachute Systems. The SFPB is the toughest, most thought out, military freefall parachute kit bag on the market. The removable Main Canopy Stuff Sack is designed for the parachutist to jump in, stuff the main canopy inside, and then carry the system out easily.

Features

- ▶ Integrated Interior Main Canopy Stuff Sack (Removable) holds up to a 370sf canopy
- ▶ Main Canopy Stuff Sack Can Be Hung Externally in the Event of a Dual Deployment
- ▶ Compression Straps on Top and Both Sides
- ▶ Padded Adjustable Shoulder Straps with Center Cinch (Removable)
- ▶ 3 Enhanced 3D Drag Handles
- ▶ 4 Front Storage Pockets
- ▶ 2 Front Transparent Pockets for LSN and Configuration
- ▶ Interior SL-3 Pocketstandalone

Medium Duffel bag

SDB-M

The medium Stratus Duffel Bag is ideal for going back and forth to the gym or an overnight stay somewhere but where it really shines, is making your friends jealous.

Features

- ▶ Constructed from 500 or 1000 denier cordura nylon, 17337 mil-spec nylon webbing, and YKK #8 zippers unless otherwise specified
- ▶ Dimensions: L: 25" D: 9.5"

Ammunition Carrier (SAC)

SAC-S

The mini Stratus Ammunition Carrier (SAC) is perfect for transporting and storing loose ammunition. This mini bag comfortably fits 150+ rounds of loose 9mm.

Features

- ▶ All of our SAC's are constructed from 500 or 1000 denier cordura nylon
- ▶ 17337 mil-spec nylon webbing, YKK #8 zippers
- ▶ Dimensions: L: 5" W: 3.5" H: 2"

- ShockStrap® Bungee
- Working Load Limit of 1,000lbs.

18" HEAVY DUTY BUNGEE STRAP

B18BK

The Heavy Duty Bungee Strap or as we like to call it; HD Strap, is our TOUGHEST and STRONGEST bungee strap! This strap is used by Professional Truckers all over the USA to help keep their tarps secured to the camping weekend warrior. All of our Heavy Duty Bungee Straps come with Galvanized Wire Hook Ends. The hook is secured to the bungee strap by passing through a pre-molded hole in the bungee strap and then Triangulated to prevent the hook and bungee strap from separating. This is a little trick we were taught from the trucking professionals out there on the road.

Features

- Fuel Resistant ◀
- UV Resistant ◀
- Chemical Resistant ◀
- All Weather ◀
- Lifetime Warranty ◀
- All Year ◀
- Made in the USA ◀

ADJUSTABLE FLEX-WEB

FW36-6NG

The ADJUSTABLE FLEX-WEB is made up of 6 Fixed End ADJUST A-STRAPS that are secured to a central powder coated ring to make an ADJUSTABLE BUNGEE CARGO NET! The Adjustable Flex-Web Bungee Cargo Net is hands down the most universal and easiest Cargo Net to use in the world. What makes it so easy to use? First off, just getting the cargo net out of its bag, our Flex-Web's do not tangle. Secondly, they are easy to use and each arm can be independently sized for the application. Once full expanded it can cover an area up to 144"x 144". Get rid of the clunky, hard to untangle net monstrosity and get your Flex-Web Bungee Cargo Net today!

Features

- UV Resistant
- Fuel Resistant
- All Weather
- Chemical Resistant
- All Year
- Lifetime Warranty
- Made in the USA

5:16" Personal Star Mold

860001200607

The Perfect Ribbon 5:16 Personal Star mold allows you to perfectly place your Personal Stars (1-4) on your ribbons. Examples of ribbons utilized with this product are the Navy Achievement or Navy Commendation.

OAK Leaf Cluster Spaced Mold

860001200621

The Perfect Ribbon Oak Leaf Cluster Spaced mold allows you to place your Oak Leaf Cluster on your ribbon (1-4) with perfect spacing. While many service members use the oak leaf combined attachment to avoid using the spacing technique authorized by all services, this mold allows the option of spacing out the Oak Leaf Cluster.

3:16" Service Star Mold

860001200614

The Perfect Ribbon 3:16 Service Star Mold. Allows you to perfectly place your personal stars (1-4) on your ribbons. Some examples of ribbons this would be placed on are the Sea Service Deployment Ribbon or the Afghanistan Campaign Ribbon.

RICKS ROASTERS

ASPETTO

Four Horsemen

855070006014

We like to say that the Four Horsemen "represents coffee" because it has a coffee from the major growing regions of the world (Pacific, Central/South America and East Africa) plus our espresso blend. It is truly a unique kind blend and built Ricks Roasters as a local coffee staple in Northern Virginia. Veteran-owned company that actively supports community and veteran charities.

Kickstart

855070006229

This is a "black and tan" blend that combines light roasted and dark roasted East African coffees for a bold, bright, sweet and mildly acidic taste. Our customers LOVE kickstart. This has converted many a cream-and-sugar coffee drinker (and even a few non-coffee drinkers) into black-coffee Kickstart diehards. This is also named in honor of one of our owners, Dan Burges, who lives in Fort Worth.

Veteran-owned company that actively supports community and veteran charities.

Brazilian Cerrado

855070006250

Nuts and caramel in a cup? Yes, please. There are very few Brazilian coffees in the market that are showcased as a single-origin coffee, and those that pass over Brazilian coffee are missing out. This coffee also has the added benefit of having low-acidity, so it is a great choice for customers who want to enjoy their coffee without upsetting their stomachs (seriously... that is a frequent question that we get). Veteran-owned company that actively supports community and veteran charities.
